No problem. We've also heard that it could get bumped to the 28th. But that would be the latest. Either way, I doubt we would re-determine anyone on the first day of coming into force, though I know it won't be too soon afterwards, as the ineligibility is retroactive to April 8th.

Hi again,

I know when we spoke you indicated that the form should ideally be revised in the next 2 weeks.

I understand that C-97 is @ Senate Committee now.

Do you have any other 'intel' (if I may) on when royal assent is expected? Must it take place while the House is sitting, i.e., by 21 June? Or is there another date?

Thx,

adrienne

Hi Tara,

Hoping you can help or point me in the right direction. When re-determinations are done, staff use form BSF529 (attached), which is generated out of GCMS. We need this form updated to reflect the new ineligibility. It appears that all that needs to be done is add another box and the 104(1)(c.1). Alternatively or in addition, IRCC could create a new document that is "smarter" and incorporates GCMS data tags to reduce the amount of data entry required on the form. See the attached ineligibility letter as an example of what we can do. Please advise if you can help update BSF529 or advise who I should contact.

Much appreciated.

Hi Adrienne,

Can you please take a look at this - appears to be a rather minor modification. That said, this form was last updated in 2006 – since we are 'opening up' the form, see if there is anything else that could be modified/updated. Before we send to Forms/Publishing, recommend we check with other areas that may use the form: Inland Ops unit, Traveller Ops/Programs, Hearings. Don't think anyone else would be using/referencing this form. If any other changes are made, we may want to show a draft to IRCC before it's finalized, but otherwise not (since they have asked for the minor modification)

Thanks,

Zrinka
